ATG's new website goes live!

Dear customers,

„Each new day is a blank page in the diary of your life. The secret of success is in turning that diary into the best story you possibly can.“

(Douglas Pagels)

This is why we at ATG have decided to open a [new page](#) (or in this case a number of pages) in our company's diary to make ATG a better story with our new website.

You will find our reliable, tried-and-tested range of products and services in a new design and we also invite you to discover our new products and services!

Find out about how we put the [MORE](#) into „Synthetic Genes and more...“ and how our research tools can help you focus on the science you want to do.

ATG – your reliable partner in synthetic biology and molecular bioenGENEering.

ATG - your reliable source for: [synthetic genes, gene clusters, gene designs, gene expression systems and more...](#)
